DETAILED ACTION

Allowable Subject Matter

1. **Claims 2, 4 – 6 and 9 – 11** (now respectively renumbered 2, 1, 3, 4, 6, 7, and 5) are allowed. The following is an Examiner's statement of reasons for allowance:

The closest prior discloses a system and corresponding operating method that stores image data, captured by an image pick-up unit, in one recording apparatus and subsequently transfers that image data to another recording apparatus based upon a list of information corresponding to the image data. Furthermore, the prior art discloses selecting predetermined information and comparing that selected information to the list of information and if there is a match of information transferring the image data corresponding to the list of information. Finally, the prior art discloses determines a remaining storage space in the second recording apparatus and gives indication as to whether the image data to be transferred exceeds that storage space.

However, the closest prior art does not teach or fairly suggest capturing that image data with a plurality of image pick-up devices and wherein the image data captured with those devices is added with an identifier (ID) for identifying each of the image pick-up devices and said list of information at least contains said ID.

2. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
